AIMS AND SCOPE Phycological Research is published by the Japanese Society of Phycology and complements the Japanese Journal of Phycology. The journal publishes international, peer-reviewed research dealing with all aspects of phycology to facilitate the international exchange of results. All articles are peer-reviewed by at least two researchers expert in the field of the submitted paper. Phycological Research has been credited by the International Association for Plant Taxonomy for the purpose of registration of new non-vascular plant names (including fossils). For further information see http://bgbm3.bgbm.fu-berlin.de/iapt/registration/journals/htm. Publication of Phycological Research has been supported by a Grant-in-Aid for Publication of Scientific Results from the Ministry of Education, Science and Culture, Japan

ABSTRACTING AND INDEXING SERVICES The journal is indexed by BIOSIS Database, Cambridge Scientific Abstracts, Chemical Abstracts Service, Ecological Abstracts, EMBASE/Excerpta Medica, GEOBASE, UnCover, University Microfilms and Zoological Record.

EDITORIAL CORRESPONDENCE All material for publication should be sent to the Editor-in-Chief, Taizo Motomura, Muroran Marine Stations, Field Science Centre for Northern Biosphere, Hokkaido University, Muroran 051-0003, Japan (fax: (+81) 143 22 4135; email: motomura@bio.sci.hokudai.ac.jp). For details instructions concerning the submission of manuscripts, please refer to the Instructions to Authors at the back of a recent issue of the journal or visit the journal web page.
