This journal is also published online at www.blackwell-synergy.com

AIMS AND SCOPE Phycological Research is published by the Japanese Society of Phycology and complements the Japanese Journal of Phycology. The journal publishes international, peer-reviewed research dealing with all aspects of phycology to facilitate the international exchange of results. All articles are peer-reviewed by at least two researchers expert in the field of the submitted paper. Phycological Research has been credited by the International Association for Plant Taxonomy for the purpose of registration of new non-vascular plant names (including fossils). For further information see http://bgbm3.bgbm.fu-berlin.de/iapt/registration/journals/htm.

ABSTRACTING AND INDEXING SERVICES The journal is indexed by BIOSIS Database, Cambridge Scientific Abstracts, Chemical Abstracts Service, Ecological Abstracts, EMBASE/Excerpta Medica, GEOBASE, UnCover, University Microfilms and Zoological Record.

THE JAPANESE SOCIETY OF PHYCOLOGY We invite anyone who is interested in any aspect of phycology to become a member of the Society. As a member you will receive Phycological Research and the Japanese Journal of Phycology free of charge. The annual membership fee for individuals ¥8000. (Members who reside outside Japan will receive only the English language journal Phycological Research and the annual membership fee is ¥7000 (standard), ¥5000 (student).)

Those who wish to join the Society should send the application form (at the back of each issue of the journal), together with payment, to the Membership Secretary: Dr Ichiro Mine, at the address given on the form. Members who wish to claim for missing or damaged issues should contact the Membership Secretary.

ADDRESS FOR EDITORIAL CORRESPONDENCE Kazuo Okuda, Department of Natural Environmental Science, Faculty of Science, Kochi University, Kochi 780-8520, Japan (email okuda@cc.kochi-u.ac.jp).

DISCLAIMER The Publisher, Society and Editors cannot be held responsible for errors or any consequences arising from the use of information contained in this journal; the views and opinions expressed do not necessarily reflect those of the Publisher, Society and Editors, neither does the publication of advertisements constitute any endorsement by the Publisher, Society and Editors of the products advertised.

This journal is printed on acid-free paper.

Publication of Phycological Research has been supported by a Grant-in-Aid for Publication of Scientific Research Results from the Japan Society for the Promotion of Science.

Cover Chaetoceros pseudocurvisetus — photomicrograph by Jan Rines.
See Rines and Theriot in this issue.

PRE_JEB_June03
The Japanese Society of Phycology

Officers for 2003–2004

President: Yoshiaki Hara, Faculty of Science, Yamagata University, Yamagata 990-8560, Japan
Secretary: Tasuku Hishinuma, Faculty of Science, Yamagata University, Yamagata 990-8560, Japan

Membership secretary: Ichiro Mine, Faculty of Science, Kochi University, Kochi 780-8520, Japan
Treasurer: Akiko Yokoyama, Faculty of Science, Yamagata University, Yamagata 990-8560, Japan.

Members of Executive Council 2003–2004

Hideomi Amano Mie University
Daisuke Fujita Toyama Prefectural Government
Yuji Fujita Nagasaki University
Ichiro Imai Kyoto University
Isao Inoue University of Tsukuba
Hironao Kataoka Tohoku University
Shigeo Kaguchi Kyushu University
Miyuki Maegawa Mie University
Shigeki Mayama Tokyo Gakugei University
Taizo Motomura Hokkaido University
Hiroyuki Nakahara Kyoto University
Kazuo Okuda Kochi University
Naotsune Saga Hokkaido University
Jiro Tanaka Tokyo University of Fisheries
Toshinobu Terawaki National Research Institute of Fisheries and Environment of Inland Sea
Yasutsugu Yokohama Shizugawa Nature Center
Makoto Yoshizaki Toho University
Makoto M. Watanabe National Institute for Environmental Studies

JOIN THE JAPANESE SOCIETY OF PHYCOLOGY AND RECEIVE FOUR ISSUES OF PHYCOLOGICAL RESEARCH PER YEAR FREE OF CHARGE

The Japanese Society of Phycology, founded in 1952, currently has 760 members (including 105 overseas members). The Society is open to anyone who is interested in pure or applied aspects of phycology.

Application for membership

(Please type or write in block letters)

Name in full: .......................................................... (Family name)
.......................................................... (Given name and initials)

Mailing address: ..........................................................

Telephone: ..........................................................
Fax: ..........................................................

E-mail: ..........................................................
Interests: ..........................................................

Signature: ..........................................................
Date: ..........................................................

The annual fee for individual members is ¥8000
(¥7000 for members who reside outside Japan, ¥5000 for students who submit a verifying statement signed by their Chairperson or Head of Department)

Payment by:    □ Visa    □ MasterCard    □ American Express

Card number: ..........................................................
Expiry date: ..........................................................

Signature: ..........................................................

☐ International giro postal transfer (Postal Account No.: 01320-4-48748)
☐ International postal money order

Send application form to: Dr Ichiro Mine
Faculty of Science
Kochi University
2-5-1 Akebono-cho,
Kochi 780-8520, Japan
Fax: +81 88 844 8356; email: jsphycol@anet.ne.jp
Toshiya Katano and Manabu Fukui  
Molecular inference of dominant picocyanobacterial populations by denaturing gradient gel electrophoresis of PCR amplified 16S rRNA gene fragments  

Shinya Yoshikawa, Chikako Nagasato, Terunobu Ichimura and Taizo Motomura  
Morphological changes of sperm nuclei during spermatogenesis in the brown alga Cystoseira hakodatensis (Fucales, Phaeophyceae)  

Jan E. B. Rines and Edward C. Theriot  
Systematics of Chaetocerotaceae (Bacillariophyceae). I. A phylogenetic analysis of the family  

Satoshi Shimada, Masanori Hiraoka, Shinichi Nabata, Masafumi Iima and Michio Masuda  
Molecular phylogenetic analyses of the Japanese Ulva and Enteromorpha (Ulvales, Ulvophyceae), with special reference to the free-floating Ulva  

Ichiro Mine, Yuka Kubouchi and Kazuo Okuda  
Fine structure of spermatial surface in the red alga Antithamnion nipponicum (Rhodophyta)  

Ryoichi Asai, Keijiro Nakanishi, Chikashi Nakamura, Kazunori Ikebukuro, Jun Miyake and Isao Karube  
A polymerase chain reaction-based ribosomal DNA detection technique using a surface plasmon resonance detector for a red tide causing microalga, Alexandrium affine  

Geraldine Reid and David M. Williams  
Systematics of the Gyrosigma balticum complex (Bacillariophyta), including three new species
