This journal is also published online at www.blackwell-synergy.com

AIMS AND SCOPE *Phycological Research* is published by the Japanese Society of Phycology and complements the *Japanese Journal of Phycology*. The journal publishes international, peer-reviewed research dealing with all aspects of phycology to facilitate the international exchange of results. All articles are peer-reviewed by at least two researchers expert in the field of the submitted paper. *Phycological Research* has been credited by the International Association for Plant Taxonomy for the purpose of registration of new non-vascular plant names (including fossils). For further information see <http://bgbm3.bgbm.fu-berlin.de/iapt/registration/journals/htm>.

Publication Frequency: Four issues per year.

ABSTRACTING AND INDEXING SERVICES The journal is indexed by BIOSIS Database, Cambridge Scientific Abstracts, Chemical Abstracts Service, Ecological Abstracts, EMBASE/Excerpta Medica, GEOBASE, UnCover, University Microfilms and Zoological Record.

THE JAPANESE SOCIETY OF PHYCOLOGY We invite anyone who is interested in any aspect of phycology to become a member of the Society. As a member you will receive *Phycological Research* and the *Japanese Journal of Phycology* free of charge. The annual membership fee for individuals ¥8000. (Members who reside outside Japan will receive only the English language journal *Phycological Research* and the annual membership fee is ¥7000 (standard), ¥5000 (student).)

Those who wish to join the Society should send the application form (at the back of each issue of the journal), together with

payment, to the Membership Secretary: Dr Ichiro Mine, at the address given on the form. Members who wish to claim for missing or damaged issues should contact the Membership Secretary.

ADDRESS FOR EDITORIAL CORRESPONDENCE Kazuo Okuda, Department of Natural Environmental Science, Faculty of Science, Kochi University, Kochi 780-8520, Japan (email okuda@cc.kochi-u.ac.jp).

DISCLAIMER The Publisher, Society and Editors cannot be held responsible for errors or any consequences arising from the use of information contained in this journal; the views and opinions expressed do not necessarily reflect those of the Publisher, Society and Editors, neither does the publication of advertisements constitute any endorsement by the Publisher, Society and Editors of the products advertised.

This journal is printed on acid-free paper.

© 2004 Japanese Society of Phycology.

Publication of *Phycological Research* has been supported by a Grant-in-Aid for Publication of Scientific Research Results from the Japan Society for the Promotion of Science.

Cover Habit of *Hydroclathrus clathratus* growing on staghorn-coral tines in the shallow subtidal at Suomi Island, the Houtman Abrolhos, Western Australia. Inset: Punctate, nearly circular sori of *H. staphanosorus* from Lord Howe Island. See Kraft and Abbott in *Phycological Research*, 51(4): 244–58.

The Japanese Society of Phycology

Officers for 2003–2004

President: Yoshiaki Hara, Faculty of Science, Yamagata University, Yamagata 990-8560, Japan
Secretary: Tasuku Hishinuma, Faculty of Science, Yamagata University, Yamagata 990-8560, Japan

Membership secretary: Ichiro Mine, Faculty of Science, Kochi University, Kochi 780-8520, Japan
Treasurer: Akiko Yokoyama, Faculty of Science, Yamagata University, Yamagata 990-8560, Japan.

Members of Executive Council 2003–2004

Hideomi Amano *Mie University*
Daisuke Fujita *Tokyo University of Marine Science and Technology*
Yuji Fujita *Nagasaki University*
Ichiro Imai *Kyoto University*
Isao Inoue *University of Tsukuba*
Hironao Kataoka *Tohoku University*
Shigeo Kawaguchi *Kyushu University*
Miyuki Maegawa *Mie University*
Shigeki Mayama *Tokyo Gakugei University*
Taizo Motomura *Hokkaido University*

Hiroyuki Nakahara *Kyoto University*
Kazuo Okuda *Kochi University*
Naotsune Saga *Hokkaido University*
Jiro Tanaka *Tokyo University of Fisheries*
Toshinobu Terawaki *National Research Institute of Fisheries and Environment of Inland Sea*
Yasutsugu Yokohama *Shizugawa Nature Center*
Makoto Yoshizaki *Toho University*
Makoto M. Watanabe *National Institute for Environmental Studies*

JOIN THE JAPANESE SOCIETY OF PHYCOLOGY AND RECEIVE FOUR ISSUES OF *PHYCOLOGICAL RESEARCH* PER YEAR FREE OF CHARGE

The Japanese Society of Phycology, founded in 1952, currently has 760 members (including 105 overseas members). The Society is open to anyone who is interested in pure or applied aspects of phycology.

Application for membership

(Please type or write in block letters)

Membership starts from 2004

Name in full: _____, _____
(Family name) (Given name and initials)

Mailing address: _____

(Postal code) (Country)

Telephone: _____ Fax: _____

E-mail: _____ Interests: _____

Signature: _____ Date: _____

The annual fee for individual members is ¥8000

(¥7000 for members who reside outside Japan, ¥5000 for students who submit a verifying statement signed by their Chairperson or Head of Department)

Payment by: ☐ Visa ☐ MasterCard ☐ American Express

Card number: _____ - _____ - _____ - _____ Expiry date: _____

Signature: _____

☐ International giro postal transfer (Postal Account No.: 01320-4-48748)

☐ International postal money order

Send application form to: Dr Ichiro Mine
Faculty of Science
Kochi University
2-5-1 Akebono-cho,
Kochi 780-8520, Japan
Fax: +81 88 844 8356; email: jsphycol@anet.ne.jp

Phycological Research

Volume 52 • Issue 1 • March 2004

- Victor A. Chepurnov and David G. Mann
Auxosporulation of Licmophora communis (Bacillariophyta) and a review of mating systems and sexual reproduction in araphid pennate diatoms 1
- Fernando Gómez and Ken Furuya
Research note: New records of Scaphodinium mirabile (Dinophyceae), an unnoticed dinoflagellate in the Pacific Ocean 13
- Masanori Hiraoka, Satoshi Shimada, Masako Uenosono and Michio Masuda
A new green-tide-forming alga, Ulva ohnoi Hiraoka et Shimada sp. nov. (Ulvales, Ulvophyceae) from Japan 17
- Gregory N. Nishihara, Yuko Mori, Ryuta Terada and Tadahide Noro
Habitat characteristics and seasonal changes of Laurencia brongniartii (Ceramiales, Rhodophyta) in Kagoshima, Southern Japan 30
- Eriko Nakamura, Yasutsugu Yokohama and Jiro Tanaka
Photosynthetic activity of a temperate coral Acropora pruinosa (Scleractinia, Anthozoa) with symbiotic algae in Japan 38
- Estela M. Plastino, Suzana Ursi and Mutue T. Fujii
Color inheritance, pigment characterization, and growth of a rare light green strain of Gracilaria birdiae (Gracilariales, Rhodophyta) 45
- Maria Greger and Monica Johansson
Research note: Aggregation effects due to aluminium adsorption to cell walls of the unicellular green alga Scenedesmus obtusiusculus 53
- Etienne Jean Faye, Hong Wei Wang, Shigeo Kawaguchi, Satoshi Shimada and Michio Masuda
Reinstatement of Grateloupia subpectinata (Rhodophyta, Halymeniaceae) based on morphology and rbcL sequences 59
