Isao Inouye Tsukuba, Japan

This journal is available online at Blackwell Synergy. Visit http://www.blackwell-synergy.com to search the articles and register for table of contents email alerts.

Access to this journal is available free online within institutions in the developing world through the AGORA initiative with the FAO. For information, visit http://www.aginternetwork.org.

AIMS AND SCOPE Phycological Research is published by the Japanese Society of Phycolgy and complements the Japanese Journal of Phycology. The Journal publishes international, peer-reviewed research dealing with all aspects of phycology to facilitate the international exchange of results. All articles are peer-reviewed by at least two researchers expert in the field of the submitted paper. Phycological Research has been credited by the International Association for Plant Taxonomy for the purpose of registration of new non-vascular plant names (including fossils). For further information see http://bgbm3.bgbm.fuberlin.de/lapt/registration/journals/htm.

ABSTRACTING AND INDEXING SERVICES The journal is indexed by BIOSIS Database, Cambridge Scientific Abstracts, Chemical Abstracts Service, Ecological Abstracts, EMBASE/Excerpta Medica, GEOBASE, ProQuest (formerly University Microfilms), Science Citation Index (ISI), Zoological Record and National Inquiry Services Centre.

THE JAPANESE SOCIETY OF PHYCOLOGY We invite anyone who is interested in any aspect of phycology to become a member of the Society. As a member you will receive Phycological Research and the Japanese Journal of Phycology free of charge. The annual membership fee for individuals ¥8000. (Members who reside outside Japan will receive only the English language journal Phycological Research and the annual membership fee is ¥7000 (standard), ¥5000 (student).)

Those who wish to join the Society should send the application form (at the back of each issue of the Journal), together with payment, to the Membership Secretary, Dr Mitsunobu Kamiya, at the address given on the form. Members who wish to claim for missing or damaged issues should contact the Membership Secretary.

ADDRESS FOR EDITORIAL CORRESPONDENCE Kazuo Okuda, Graduate School of Kuroshio Science, Kochi University, 2-5-1 Akebono-cho, Kochi 780-8520, Japan (email okuda@cc.kochi-u.ac.jp).

DISCLAIMER The Publisher, Society and Editors cannot be held responsible for errors or any consequences arising from the use of information contained in this journal; the views and opinions expressed do not necessarily reflect those of the Publisher, Society and Editors, neither does the publication of advertisements constitute any endorsement by the Publisher, Society and Editors of the products advertised.

Cover Immunofluorescence of cortical microtubules in the dinoflagellate Pyrocystis lunula (Schütt) Schütt. Photographed by Dr. Satoko Sekida.
The Japanese Society of Phycology

Officers for 2005–2006

President: Hiroshi Kawai, Kobe University Research
Center for Inland Seas, Kobe 657-8501, Japan

Secretary: Takeaki Hanyuda, Kobe University
Research Center for Inland Seas, Kobe 657-8501, Japan

Public Relations Secretary: Satoshi Shimada, Center for
Advanced Science and Technology, Hokkaido University,
Sapporo 060-0810, Japan

Membership Secretary: Mitsunobu Kamiya, Faculty of
Biotechnology, Fukui Prefectural University, Obama
917-0003, Japan

Secretary for International Affairs: Ken-ichi Ishida,
Faculty of Science, Kanazawa University, Kanazawa
920-1192, Japan

Treasurer: Daiske Honda, Faculty of Science and
Engineering, Konan University, Kobe 658-8501, Japan.

Members of Executive Council 2005–2006

Tetsuro Ajisaka Kyoto University
Daisuke Fujita Tokyo University of Marine Science and
Technology
Yoshiaki Hara Yamagata University
Takeo Horiguchi Hokkaido University
Masahiko Idei Bunkyo University
Ichiro Imai Kyoto University
Isao Inouye University of Tsukuba
Ken-ichi Ishida Kanazawa University
Tadahiko Kajiwara Yamaguchi University
Shigeo Kagawuchi Kyushu University
Akira Kurashima Meie University
Miyuki Maegawa Meie University
Tamotsu Nagumo The Nippon Dental University
Takahide Noro Kagoshima University
Kazuo Okuda Kochi University
Naotsune Saga Hokkaido University
Makoto Yoshizaki Toho University

JOIN THE JAPANESE SOCIETY OF PHYCLOGY AND RECEIVE FOUR
ISSUES OF PHYCLOGICAL RESEARCH PER YEAR FREE OF CHARGE

The Japanese Society of Phycology, founded in 1952, currently has 760 members (including 105 overseas members). The Society is open to anyone who is interested in pure or applied aspects of phycology.

Application for membership

(Please type or write in block letters)

Name in full: ____________________________ (Family name) ____________________________ (Given name and initials)

Mailing address: ____________________________________________________________

Postal code: __________ Country: __________

Telephone: ____________________________ Fax: ____________________________

E-mail: ____________________________ Interests: ____________________________

Signature: ____________________________ Date: ____________________________

The annual fee for individual members is ¥8000
(¥7000 for members who reside outside Japan, ¥5000 for students who submit a verifying statement signed by their Chairperson or Head of Department)

Payment by: □ Visa □ MasterCard □ American Express

Card number: ____________________________ Expiry date: ____________________________

Signature: ____________________________

□ International giro postal transfer (Postal Account No.: 01320-4-48748)
□ International postal money order

Send application form to: Dr Mitsunobu Kamiya
Faculty of Biotechnology
Fukui Prefectural University
1-1 Gakuen-cho,
Obama 917-0003, Japan
Fax: +81 770 52 6003; email: jsp@wwwsoc.nii.ac.jp
Phycological Research

Volume 54 • Issue 2 • June 2006

Marínés García
The transfer of Fragilaria obtusa Hustedt to the genus Staurosira Ehrenberg (Bacillariophyceae) 87

Shin-ichiro Abe, Katsuhito Kiso, Osamu Katano, Satoshi Yamamoto, Tamotsu Nagumo and Jiro Tanaka
Impacts of differential consumption by the grazing fish, Plecoglossus altivelis, on the benthic algal composition in the Chikuma River, Japan 94

Akihiro Tuji and David M. Williams
Examination of the type material of Synedra rumpens = Fragilaria rumpens, Bacillariophyceae 99

Francisco Hernández-Chavarria and Ana Sittenfeld
Research note: Preliminary report on the extreme endolithic microbial consortium of ‘Pailas Frías’, ‘Rincón de la Vieja’ Volcano, Costa Rica 104

Javier Carmona, Gustavo Montejano and Orlando Necchi Júnior
Ecology and morphological characterization of gametophyte and ‘Chantransia’ stages of Sirodota huillensis (Batrachospermales, Rhodophyta) from a stream in central Mexico 108

Satoko Akatsuka, Yuki Tsuchikane, Ryō-hei Fukumoto, Tadashi Fujii and Hiroyuki Sekimoto
Physiological characterization of the sex pheromone protoplast-release-inducing protein from the Closterium percerosum-strigosum-littorale complex (Charophyta) 116

James D. Reimer, Kiyotaka Takishita, Shusuke Ono, Tadashi Maruyama and Junzo Tsukahara
Latitudinal and intracolony ITS-rDNA sequence variation in the symbiotic dinoflagellate genus Symbiodinium (Dinophyceae) in Zoanthus sansibaricus (Anthozoa: Hexacorallia) 122

Chihiro Uemori, Chikako Nagasato, Atsushi Kato and Taizo Motomura
Ultrastructural and immunocyto logical studies on the rhizoplast in the chrysophycean alga Ochromonas danica 133

Enrico Tronchin, T. Samaai, R. J. Anderson and J. J. Bolton
Sponge-seaweed associations in species of Ptilophora (Gelidiaceae, Rhodophyta) 140

Kenji Saitoh and Daisuke Muraoka
Undaria mitochondrial large subunit ribosomal DNA (Phaeophyceae, Alariaceae): Structural properties and use for phylogenetic analysis 149

Alan J. K. Millar and Claude E. Payri
New records of marine benthic algae from the Lagon Sud-West of New Caledonia, South Pacific 154

Announcement 171
