Umezaki, I. and Watanabe, M. 1994. Enumeration of the Cyanophyta (blue-green algae) of Japan 1. Chroococcales and Oscillatoriales. Jpn. J. Phycol. 42: 175–219.

The present contribution is a list of blue-green algae belonging to the orders of Chroococcales and Oscillatoriales recorded from Japan during the past 144 years from 1859 to 1993.

In the Chroococcales 7 families, 40 genera and 160 species are known. The following two species are new combinations. Entophysalidaceae: *Placoma adriatica* (Hauck) comb. nov. (= *Oncobrysa adriatica* Hauck 1885), *P. micrococcoides* (Hansg.) comb. nov. (= *Oncobrysa adriatica* Hauk var. *micrococcoides* Hansg. 1893). A new name for one species is given. Xénococcaceae: *Xenococcus yonedaee* nom. nov.

In the Oscillatoriales the Borziaceae includes 3 genera and 6 species; the Homoeotrichaceae 2 genera and 17 species; the Oscillatoriaceae 5 genera and 31 species; the Phormidiaceae 12 genera and 126 species; the Pseudanabaenaceae 8 genera and 72 species; and the Schizotrichaceae one genus and 15 species.

In the Borziaceae one new combination is reported: *Komvophoron tenuis* (Emoto & Hirose) comb. nov. (= *Oscillatoria constricta* Szaf. var. *tenuis* Emoto & Hirose 1940).

In the Oscillatoriaceae one new combination is given: *Lyngbya anomala* (C. B. Rao) comb. nov. (= *Phormidium anomalum* C. B. Rao 1937).

In the Phormidiaceae 13 new combinations and 3 new names are given: *Phormidium acuminatum* (Gom.) Anagn. & Kom. var. *longe-attenuatum* (Geitl. & Ruttn.) comb. nov. (= *Oscillatoria acuminata* Gom. f. *longe-attenuata* Geitl. & Ruttn. 1935), *P. chalybeum* (Mert. ex Gom.) Anagn. & Kom. var. *depauperatum* (Copel.) comb. nov. (= *Oscillatoria chalybea* Mert. ex Gom. var. *depauperata* Copel. 1936), *P. chlorinum* (Kütz. ex Gom.) comb. nov. (= *Oscillatoria chlorina* Kütz. ex Gom. 1892), *P. foreaui* (Frémy) comb. nov. (= *Oscillatoria foreaui* Frémy 1942), *P. konstantianum* nom. nov., *P. nemuroense* (Yoneda) comb. nov. (= *Lyngbya nemuroensis* Yoneda 1941), *P. proteus* (Skuja) comb. nov. (= *Oscillatoria proteus* Skuja 1949), *P. pufeale* (Mont. ex Gom.) Anagn. & Kom. var. *minor* (Geitl.) comb. nov. (= *Lyngbya putealis* Mont. ex Gom. var. *minor* Geitl. 1933), *P. spirulinoides* (Yoneda) comb. nov. (= *Oscillatoria spirulinoides* Yoneda 1954), *P. subspiroides* (Copel.) comb. nov. (= *Lyngbya subspiroides* Copel. 1936), *P. thwaitesii* nom. nov., *P. yonedaee* (Umez.) comb. nov. (= *Oscillatoria yonedaee* Umez. 1961), *P. yuichii* nom. nov., *Planktothrix iwanoffiana* (Nyg.) comb. nov. (= *Trichodesmium Iwanoffianum* Nyg. 1926), *P. lacustris* (Kleb.) comb. nov. (= *Trichodesmium lacustre* Kleb. 1895), *P. miyadiei* (Negoro) comb. nov. (= *Oscillatoria Miyadiei* Negoro 1943).

Fifteen new combinations and one new name are given in the Pseudanabaenaceae: *Geitlerinema peronidum* (Skuja) comb. nov. (= *Oscillatoria peronides* Skuja 1937), *G. splendidum* (Grev. ex Gom.) Anagn. var. *attenuatum* (W. West) comb. nov. (= *Oscillatoria splendida* Grev. ex Gom. var. *attenuata* W. West 1896), *G. splendidum* var. *truncatum* (Emoto & Hirose) comb. nov. (= *Oscillatoria splendida* var. *truncatum* Emoto & Hirose 1940), *G. uncinatum* (Emoto & Hirose) comb. nov. (= *Oscillatoria uncinata* Emoto & Hirose 1940), *G. codii* nom. nov., *Leibleinia pellucida* (Umez.) comb. nov. (= *Lyngbya pellucida* Umez. 1961), *Leptolyngbya cebennensis* (Gom.) comb. nov. (= *Phormidium cebennense* Gom. 1899), *L. desmidiaeum* (Noda) comb. nov. (= *Plectonema desmidiaeum* Noda 1971), *L. notata* Schmidle var. *africana* (Fritsch & Rich) comb. nov. (= *Plectonema notatum* Schmidle var. *africanum* Fritsch & Rich 1925), *L. purpurascens* (Gom.) Anagn. & Kom. var. *elegans* (Drouet) comb. nov. (= *Phormidium purpurascens* Gom. var. *elegans* Drouet 1934), *L. subterranea* (Copel.) comb. nov. (= *Phormidium subterraneum* Copel. 1936), *Planktolyngbya spirulinoides* (Utermöhl) comb. nov. (= *Lyngbya spirulinoides* Utermöhl 1925), *Jaaginema geminata* (Schwabe ex Gom.) Anagn. & Kom. var. *sulphurea* (Strzesz.) comb. nov. (= *Oscillatoria geminata* Schwabe ex Gom. var. *sulphurea* Strzesz. 1913), *Limnothrix guttulata* (van Goor) comb. nov. (= *Oscillatoria guttulata* van Goor 1918), *L. pseudominima* (Skuja) comb. nov. (= *Oscillatoria pseudominima* Skuja 1955), *L. quasiperforata* (Skuja) comb. nov. (= *Oscillatoria quasiperforata* Skuja 1949).

Key Index Words: blue-green algae, Cyanophyta, Chroococcales, Oscillatoriales, list, Japan

Harvey (1859) described four new marine blue-green algae on the basis of specimens collected by Charles Wright during the North Pacific Exploring Expedition under Captain Rodgers in 1853-1856. These are: *Rivularia opaca* in the Ryukyu Islands (= *Rivularia atra* Roth ex Born. & Flah. 1886), *Lyngbya effusa* Harv. in the Ryukyu Islands (= *Scytonema polycystum* Born. & Flah. 1887), *L. atrovirens* Harv. in the Ryukyu Islands (= *Lyngbya confervoides* C. Ag. ex Gom. 1892), and *L. atropurpurea* Harv. in the Bonin Islands (= *Lyngbya confervoides* C. Ag. ex Gom. 1892). In Harvey's unpublished manuscript written in 1859 and discovered in the Farlow Herbarium at Harvard University by Dawson in 1959, the following additional species are listed: *Rivularia nitida* C. Ag. in the Ryukyu Islands (= *Rivularia nitida* C. Ag. ex Born. & Flah. 1886), *Calothrix rigida* Harv. in the Ryukyu Islands (= *Symploca hydnoides* Kütz. ex Gom. 1892), *Lyngbya majuscula* Harv. in the Ryukyu Islands (= *Lyngbya majuscula* Harv. ex Gom. 1892), *Oscillatoria indeterminata* (two undetermined forms) in the Ryukyu Islands, and *Nostoc commune* Vauch. in the Ryukyu Islands (= *Nostoc commune* Vauch. ex Born. & Flah. 1888).

Martens (1866) reported the occurrence of two freshwater blue-green algal species, *Nostoc commune* Vauch. (= *Nostoc commune* Vauch. ex Born. & Flah. 1886) at Nagasaki and *Rivularia Lens* Menegh. (= *Gloeotrichia pisum* Thur. ex Born. & Flah. 1886) at Yokohama from specimens collected by the Prussian Expedition.

Suringar (1870) described two new species from the specimens collected by Siebold, Büger, Textor and Bishop in the vicinity of Nagasaki, Kyusyu: *Sirosiphon vermiculare* Suring. [= *Stigonema vermiculare* Forti 1907, or = *Stigonema ocellatum* (Dillw.) Thur. by Drouet 1981] and *Hypheothrix anguina* Suring. [= *Lyngbya (Hypheothrix) anguina* Suring. ex Hansgirg 1892, or = bacteria or fungi according to Drouet 1981, p. 215]. In 1872 Suringar described *Phylloderma sacrum* Suring. in his "Illustration des algues du Japon" on the basis of dried specimens sent from

Japan. The species name was historically changed to *Nostoc phylloderma* ("*Phylloderma*") (Suring.) Ono (Ono 1904), and *Aphanothecce sacra* ("*sacrum*") (Suring.) Okada (Okada 1953a). Compère (1970), however, identified it as *Aphanothecce stagnina* (Spreng.) A. Br. Dickie (1877) reported *Nostoc paludosum* Kütz. (= *Nostoc paludosum* Kütz. ex Born. & Flah. 1886) from near Lake Hakone, collected by H. N. Mosley of H. M. S. Challenger.

In 1894 Heydrich reported *Oscillatoria* sp. ("*Oscillaria*" sp.) and *Spirulina subsalsa* Oerst. (as *Spirulina Thuretii* Crouan) as occurring in Keelung, Formosa. De Toni (1895) listed the following marine species reported by foreign phycologists to occur in Japan: *Lyngbya confervoides* Ag. (syn.: *Lyngbya atrovirens* Harv. 1859; *Lyngbya atropurpurea* Harv. 1859), *Calothrix crustacea* Thur. (syn.: *Leibleinia australis* Kütz. in herb. Grunow), *Spirulina subsalsa* Oerst. (syn.: *Spirulina Thuretii* Crouan 1854 in Heydrich 1894), *Rivularia atra* Roth (syn.: *Rivularia opaca* Harv. 1859), and *Scytonema polycystum* Born. & Flah. (syn.: *Lyngbya effusa* Harv. 1859). Holmes (1895) studying specimens submitted from the environs of Tokyo, listed two marine species already known to the British coast: *Dermocarpa schousboei* Born. ("*Schousboei*") (= *Xenococcus schousboei* Thur. 1880) and *Lyngbya confervoides* C. Ag. (= *Lyngbya confervoides* C. Ag. ex Gom. 1892).

Okamura (1902) listed 23 species reported as occurring in Japan by the foreign phycologists mentioned above. However, only three species were certain to his knowledge: *Clathrocystis aeruginosa* (Harv.) Henfr. (= *Microcystis aeruginosa* Kütz. 1846), *Nostoc Phylloderma* (Suring.) Ono (syn.: *Phylloderma Sacrum* Suring. 1872) [= *Aphanothecce sacra* (Suring.) Okada 1953a], and *Anabaena Azollae* Strasb. [= *Trichormus azollae* (Strasb.) Kom. & Anagn. 1989]. The same list was followed by Matsumura (1904), who added four species: *Cylindrospermum stagnale* (Kütz.) Born. & Flah., *Microcoleus vaginatus* (Vauch.) Gom., *Nostoc paludosum* Kütz. (in Dickie 1877, p. 272), and *Stigonema ocellatum* (Dillw.) Thur. (in Born. & Flah. 1886, p. 69). Hattori (1908) discovered *Oscillatoria* sp. and *Anabaena*

flos-aquae Bréb. in Lake Suwa.

Katsuyama (1887) was the first to record the existence of blue-green algae such as *Chroococcus* sp. (as *Cosmarium*-like alga) and *Oscillatoria* sp. ("Oscillaria") from Jozankei Hot Spring in Hokkaido. Hori (1890) found *Oscillatoria* sp. ("Oscillaria") in Tamatsukuri Hot Spring, Tottori Prefecture. Since then, much attention has been focused on thermal blue-green algae in Japan. Molisch's paper (1926), recording numerous eurythermal blue-green algae such as *Synechococcus* spp., *Jaginema geminata* (as *Oscillatoria geminata*), *Leptolyngbya fragilis* (as *Phormidium fragile*), *L. laminosa* (as *Phormidium laminosum*), *Mastigocladus laminosus*, *Phormidium formosum* (as *Oscillatoria formosa*), *Symploca thermalis*, etc. from 25 thermal areas, marked an epoch in thermal blue-green algal studies in Japan. This paper gave a great impetus to studies of thermal blue-green algae and contributed to the sudden progress of the field in Japan. Of course, freshwater and terrestrial species such as *Aphanothee sacra* ("sacrum") (Suring.) Okada 1953a [syn.: *Nostoc Phylloderma* (Suring.) Ono 1904] whose basionym, *Phylloderma Sacrum*, was described by Suringer (1872) on the basis of dried specimens sent from Japan, and *Nostoc commune* and *N. verrucosum* which have been popularly used for food from ancient times in Japan were recorded also. Although many fragmental papers dealing with freshwater, terrestrial and thermal species had been reported, active taxonomic studies in Japan began in 1936 with Negoro's "Planktoncyanophyceen in japanischen Seen und Teichen" (I, 1936; II-III, 1937a), in 1937 with Hirose's "Some cyanophycean algae from Hokkaido" (I-III, 1937; IV-V, 1938), and in 1937 with Yoneda's "Cyanophyceae of Japan" (I, 1937; II, 1938a; III, 1938b; IV, 1939a; V, 1940a; VI, 1941a; VII, 1942a). About eight hundred mineral springs, both hot and cold, are known to exist in Japan (Yoneda 1952a). These afforded a good opportunity for studies on thermal organisms including blue-green algae. Emoto and Hirose (1940a-c, 1941, 1942a-f, 1943a-b, 1949, 1952a-c), Emoto and Yoneda (1940a-b,

1941a-b, 1942), Yoneda (1940a-b, 1941a-c, 1942a-g, 1952a-b) and Mifune et al. (1966) worked activity on the blue-green algae in thermal springs from Hokkaido to Kyushu under the main title "Studies on thermal flora of Japan" (I-XXXIII). These results, excluding Mifune et al. (1966), were reviewed by Yoneda (1952a), enumerating 51 genera and 290 species in accordance with Geitler's classification system (1932). Works on freshwater and terrestrial species were started by Okada (1936) and Negoro (1937a-b), followed by many phycologists (Akiyama, Hirano, Hirose, Hiramatsu, Nakano, M. Watanabe, Yamagishi, Yoneda, and others; see references), while others worked on the planktonic blue-green algae from a limnological view of point. The freshwater, planktonic, terrestrial and thermal species studied by these phycologists were summarized in the class Cyanophyceae by Hirose and Hirano in Hirose, H. and Yamagishi, T. (eds.), "Illustrations of the Japanese fresh-water algae" in 1977.

Okamura (1915) reported the existence of a marine species, *Brachytrichia Quoyi* (C. Ag.) Born. & Flah. [= *Brachytrichia quojii* (C. Ag.) Born. & Flah. 1886]. In 1916 he listed eleven marine species excluding the species reported by the foreign phycologists mentioned above: *Oncobrysa adriatica* Hauck? [= *Placoma adriatica* (Hauck) comb. nov.], *Dermocarpa prasina* (Reinsch) Thur. & Born. [= *Cyanocystis prasina* Reinsch] Kom. & Anagn. 1986], *D. Farlowii* Börg. [= *Cyanocystis protea* (Setch. & Gardn.) Kom. & Anagn. 1986. syn. *Dermocarpa protea* Setch. & Gardn., syn. *Dermocarpa farlowii* (non Börg) Yendo in Tokida 1938], *Trichodesmium erythraeum* Ehr. (= *Trichodesmium erythraeum* Ehr. ex Gom. 1892), *T. Thiebautii* Gom. (= *Trichodesmium thiebautii* Gom. 1892), *Richelia intracellularis* J. Schmid, *Calothrix crustacea* Thur. (= *Calothrix crustacea* Schousb. & Thur. ex Born. & Flah. 1886), *C. scopulorum* Ag. [= *Calothrix scopulorum* (Web. & Mohr.) C. Ag. ex Born. & Flah. 1886], *C. aeruginea* Thur. [= *Calothrix aeruginea* (Kütz.) Thur. ex Born. & Flah. 1886], and *Brachytrichia Quoyi* (Ag.) Born. & Flah.

(= *Brachytrichia quojii* (Ag.) Born. & Flah.).

Following this, reports of marine species were fragmental (Tokida 1930, 1938; Yamada and Tanaka 1944; Kobayasi and Watari 1934; Inagaki 1950). Akatsuka (1951) enumerated 5 families, 30 genera, and 139 species in his "Key and illustrations of plankton blue-green algae" of which 21 genera with 94 species are freshwater and 9 genera with 19 species marine. In 1950 Umezaki began to study the marine blue-green algae of Japan and in 1961 he reported a summary of the results from 1950 to 1958. The report enumerated 7 families, 32 genera and 86 species, although the order Chroococcales followed Drouet and Daily's classification (1956).

Species quoted from Akatsuka's (1951), Higashi and Okada's (1927), Hirose's (1965), Kokubo's (1932, 1955), Okada's (1953b), Okamura's (1922, 1930), Yamada's (1935), and Yoneda's (1966) papers, which are textbooks or keys to blue-green algal genera, and species for student training are listed in the present paper.

Japanese phycologists accepted Geitler's classification of Cyanophyceae in 1932 (In: Rabenhorst, Kryptogamen-Flora, Bd. 14, Leipzig) until 1953 when Yoneda (Yoneda 1953a) arranged his species from Oze, central Japan in five orders of Fritsch's system (The structures and reproduction of the algae, vol. 2, 1945, Cambridge). Hirose and Hirano used this system in the class Cyanophyceae (In: Hirose, H. and Yamagishi, T. (eds.), Illustrations of the Japanese fresh-water algae, 1977, Tokyo). Yamagishi and Akiyama (Photomicrographs of the fresh-water algae, vol. 1 (1984)-vol. 10 (1989) used Bourrelly's system of Cyanophyceae (Les algues d' eau douce, tom. III, Paris, 1970). Umezaki (1961) divided the class Cyanophyceae into two orders, the Chroococcales (Wettstein 1924) and the Oscillatoriales (Copeland 1936) (syn.: Hormogonales Geitl. 1942). A system dividing the class into two orders (or two groups) as Coccogneae and Hormogoneae was proposed by Thuret (1875) and followed by Kirchner (1898), Forti (1907) and Drouet (1981). Diverse classifications dividing the

class into orders, for example, into three orders (Geitler 1932, Frémy 1934, Papenfuss 1955), into four orders (Geitler 1942), or into five orders (Fritsch 1945, Desikachary 1959) have been proposed. There has been no clear system that can offer decisive agreement among students of blue-green algae. The new classification system of cyanophytes proposed by Komárek and Anagnostidis (1986) on the Chroococcales, Anagnostidis and Komárek (1988) on the Oscillatoriales, Komárek and Anagnostidis (1989) on the Nostocales, and Anagnostidis and Komárek (1990) on the Stigonematales was prepared in accordance with modern knowledge for the taxonomy of the Cyanophyceae.

In this paper, 160 species of Chroococcales and 267 species of Oscillatoriales which have been reported as occur so far from Japan are enumerated in accordance with the classification system of Anagnostidis and Komárek mentioned above.

Nomina excludenda

The following species are excluded from the blue-green algae.

Aphanocapsa rivularis (Carm.) Rabenh. 1865 (Hada 1960) = *Palmogloea protuberans* (Sm. & Sow.) Kütz. 1843 (Drouet and Daily 1956, p. 138). *Aphanothece clathrata* W. & G. S. West (Hirose and Hirano 1977; Negoro 1968) = bacteria (Drouet and Daily 1956, p. 143). *Chroococcidium* Geitler (Arch. f. Hydrobiol., Suppl. XII, 4: 624, 1933. Type: *C. gelatinosum* Geitl., ibid. 1933, Emoto and Hirose 1942d; Yoneda 1952a; Hirose and Hirano 1977) = palmelloid flagellata (Drouet and Daily 1956, p. 146). *Dactylococcopsis fascicularis* Lemm. 1898 (Hirose 1937; Mizuno 1964; Hirose and Hirano 1977) = *Ankistrodes-*

mus falcatus (Corda) Ralfs 1848 (Drouet and Daily 1956, p. 149) or to *Ankistrodesmus tortus* Kom. & Comas 1982 (syn.: *Dactylococcopsis fasciculatus* Lemm. 1898; = *Ankistrodesmus spiralis* (Turn.) Lemm. 1908) (Komárek and Comas 1982). *Pelodictyon Lauterbornii* Geitl. in Pascher 1925 (Hada 1960) = bacteria (Drouet and Daily 1956, p. 143). *Tetrapedia Reinschiana* Archer 1872 (Fukushima 1960b, 1963) = *Tetraedron* sp. (Drouet and Daily 1956, p. 166) or = *Tetraedron minimum* var. *tetralobulatum* (Reinsch) Claus (Claus 1963).

II. Oscillatoriales Elenk. 1934

1. Borziaceae Borzi 1914

Borzia Cohn ex Gom. 1892

B. endophytica (W. & G. S. West) Anagn. & Kom. 1988

Basion.: *Aphanothece nidulans* var. *endophytica* W. & G. S. West 1912

Ref.: Emoto and Hirose 1941; Yoneda 1953b; Hirose and Hirano 1977

B. trilocularis Cohn ex Gom. 1892

Ref.: Hirose and Hirano 1977

Komvophoron Anagn. & Kom. 1988

K. constrictum (Szaf.) Anagn. & Kom. 1988

Basion.: *Oscillatoria constricta* Szaf. 1911

Syn.: *Anabaena constricta* (Szaf.) Geitl. 1925

Ref.: Yoneda 1953a

Syn.: *Anabaena geitleri* J. De Toni 1934

Ref.: Yoneda 1942c, d, 1952a

K. tenuis (Emoto & Hirose) comb. nov.

Basion.: *Oscillatoria constricta* Szaf. var. *tenuis* Emoto & Hirose, Bot. & Zool. (Tokyo) 8: 1883, 1940

Ref.: Emoto and Hirose 1940c

Komvophoron tenuis differs from *K. constrictum* in having conical apical cells and little slender trichomes.

K. jovis (Copel.) Anagn. & Kom. 1988

Basion.: *Oscillatoria Jovis* Copel. 1936

Ref.: Yoneda 1942b, 1952a, 1954a; Hirose and Hirano 1977

Syn.: *Oscillatoria jovis* Copel. var. *acuta* Emoto & Yoneda 1940

Ref.: Emoto and Yoneda 1940a

Yonedaella Umezaki 1962

Syn.: *Sphaeronema* Umezaki 1961, non *Sphaeronema* ("Sphaeronaema") Fries 1823

Y. lithophila (Erceg.) Umezaki 1962

Basion.: *Isocystis lithophilum* Erceg. 1932 ("lithophila")

Syn.: *Sphaeronema lithophila* (Erceg.) Umezaki 1961

Ref.: Umezaki 1961, 1962

2. Homoeotrichaceae Elenk. 1934

(1) Homoeotrichoideae (Elenk.) Anagn. & Kom. 1988

Heteroleibleinia (Geitl.) Hoffm. 1985

Basion.: *Lyngbya* Gom. Sect. *Heteroleibleinia* Geitl. 1932

H. affixa (Yoneda) Anagn. & Kom. 1988

Basion.: *Lyngbya affixa* Yoneda 1938b

Ref.: Yoneda 1938b

H. distincta (Nordst. ex Schmidle) Anagn. & Kom. 1988

Basion.: *Lyngbya Martensiana* Menegh. var. *distincta* Nordst. ex Schmidle 1897

Syn.: *Lyngbya distincta* Schmidle 1897

Ref.: Hirose and Hirano 1977

H. erecta (Schwabe) Anagn. & Kom. 1988

Basion.: *Lyngbya erecta* Schwabe 1943, non *Lyngbya erecta* Setch. & Gardn. 1930

Ref.: Mifune et al. 1966

H. infixa (Frémy) Anagn. & Kom. 1988

Basion.: *Lyngbya infixa* Frémy 1932

Ref.: Umezaki 1955a, 1961; Noda 1974, 1987

H. kuetzingii (Schmidle) Compère 1985

Basion.: *Lyngbya kuetzingii* Schmidle 1897

Ref.: Yoneda 1938b, c, 1939c, 1952a, 1953a; Umezaki 1951, 1952a; Hirose and Hirano 1977; Ioriya et al. 1984

H. penicillata (Gom.) Anagn. & Kom. 1988

Basion.: *Schizothrix penicillata* Gom. 1892

Ref.: Yoneda 1938b, c, 1939c, 1941b, 1952a; Akiyama 1961, 1965a, b; Hirano 1962; Mifune et al. 1966; Hiramatsu 1967; Negoro 1973; Hirose and Hirano 1977

H. pithophorae (Yoneda) Anagn. & Kom.

- 1988
Basion.: Lyngbya Pithophorae Yoneda 1938b
Ref.: Yoneda 1938b, 1952a
- H. pusilla*** (Hansg.) Compère 1985
Basion.: Lyngbya pusilla (Rabenh.) Hansg.
ex Hansg. 1892
Ref.: Hirano 1962; Hirose and Hirano
1977
- H. rigidula*** (Kütz. ex Hansg.) Hoffm. 1985
Basion: Lyngbya rigidula Kütz. ex Hansg.
1892
Ref.: M. Watanabe and Niiyama 1990
- Homoethrix*** (Thur. ex Born. & Flah.)
Kirchn. 1898
Syn.: *Amphithrix* Kütz. ex Born. & Flah.
1886, *Tapinothrix* Sauv. 1892
H. balearica (Born. & Flah.) Lemm. 1907
(1910)
Basion.: Calothrix balearica Born. & Flah.
1886
Ref.: Fukushima 1949, 1951
- H. bornetti*** (Sauv.) Mabille 1954
Basion.: Tapinothrix Bornetti Sauv. 1892
Ref.: Fukushima 1951, 1960a
- H. endophytica*** (Lemm.) Lemm. 1907 (1910)
Basion.: Calothrix endophytica Lemm. 1896
Ref.: Kobayasi 1958; Kobayashi et al. 1962
- H. hansgirgii*** (Schmidle) Lemm. 1907 (1910)
Basion.: Calothrix Hansgirgii Schmidle 1900
Ref.: Horikawa et al. 1969; Hirose and
Hirano 1977
- H. janthina*** (Born. & Flah.) Starm. 1959
Basion.: Amphithrix janthina Born. & Flah.
1886
Ref.: T. Watanabe 1968c; Fukushima
1970a, b, 1971; Ioriya et al. 1984; M.
Watanabe et al. 1984
- H. juliana*** (Menegh.) Kirchn. 1900
Basion.: Calothrix juliana (Menegh.) Born.
& Flah. 1886
Ref.: Horikawa et al. 1969; Hirose and
Hirano 1977
- H. thermalis*** Emoto & Hirose 1940
Ref.: Emoto and Hirose 1940c; Hirose and
Hirano 1977
- H. varians*** Geitl. 1927
Syn.: *Homoeothrix simplex* Woron. 1932,
Homoeothrix simplex Woron. var. *elegans*
- Woron. 1932, *Homoeothrix simplex* (Woron.) Elenk. 1949
Ref.: Yoneda 1942a; Bando and Nakano
1983
3. Oscillatoriaceae (S. F. Gray) Harv. ex
Kirchn. 1898
(1) Hormosilloideae Anagn. & Kom. 1988
- Katagnymene*** Lemm. 1899
- K. pelagica*** Lemm. 1899
Ref.: Akatsuka 1951; Motoda and Marumo 1963
Syn.: *Katagnymene pelagica* Lemm. var. *major* Wille in Hensen 1904
Ref.: Akatsuka 1951; Marumo 1966
- K. spiralis*** Lemm. 1899
Ref.: Akatsuka 1951; Motoda and Marumo 1963; Marumo 1966
Syn.: *Katagnymene spiralis* Lemm. var. *captata* Wille in Hensen 1904
Ref.: Akatsuka 1951
- (2) Oscillatorioideae Gom. 1892
- Blennothrix*** Kütz. ex Anagn. & Kom. 1988
- B. cantharidosma*** (Mont. ex Gom.) Anagn. &
Kom. 1988
Basion.: Hydrocoleum cantharidosmum (Mont.)
Gom. 1892
Ref.: Umezaki 1955a, 1961; Hiramatsu
1967; Funahashi 1967; Noda 1974, 1987
- B. lyngbyacea*** (Kütz. ex Gom.) Anagn. &
Kom. 1988
Basion.: Hydrocoleum lyngbyaceum Kütz. ex
Gom. 1892
Ref.: Umezaki 1955a, 1961; Hiramatsu
1967; Noda 1974, 1987
- Oscillatoria*** Vauch. ex Gom. 1892
- O. anguina*** (Bory) Gom. 1892
- O. anguina*** var. *anguina*
Ref.: Yoneda 1938b, c, 1939b, 1942b,
1952a, b, 1962a; Emoto and Yoneda
1941a, b, 1942; Hirose and Hirano 1977
- O. anguina*** var. *tenella* Yoneda 1941c
Ref.: Yoneda 1941c, 1942a, b, 1952a; Hirose and Hirano 1977
- O. bonnemaisonii*** Crouan ex Gom. 1892

- (“*Bonnemaisonii*”)
Ref.: Akatsuka 1951; Umezaki 1961; Marumo 1966
- O. curviceps* Ag. ex Gom. 1892
Ref.: Emoto and Hirose 1942e; Yoneda 1952a; Ikoma and Doi 1955; Hiramatsu 1967; Hirose and Hirano 1977; Imazu 1979; Mifune and Hirose 1982, 1983b
Syn.: *Oscillatoria curviceps* Ag. var. *minor* Emoto & Hirose 1940a
Ref.: Emoto and Hirose 1940a, 1943a, b, 1952a; Yoneda 1942b, 1952a; Ikoma and Doi 1955; Hirose and Hirano 1977; Mifune and Hirose 1983a
- O. fracta* Carls 1913
Ref.: Hirano 1962
- O. kawamurae* Negoro 1943b (“*Kawamurae*”)
Ref.: Hirose et al. 1960; Akiyama 1965a; Yoneda 1966; Hirose and Hirano 1977; Negoro 1973, 1991a
- O. limosa* (Dillw.) Ag. ex Gom. 1892
Ref.: Ueda and Okada 1934; Miyauchi 1935; Hada 1937; Yoneda 1937, 1938c, 1942c, d, 1952a, 1966; Hirose 1938, 1950; Emoto and Yoneda 1940a; Emoto and Hirose 1940c; Hirano 1956b, 1960, 1962, 1963; Kobayasi 1958; Hada 1960; Kobayasi et al. 1962; Akiyama 1965a; Mifune et al. 1966; Hiramatsu 1967, 1973; T. Watanabe 1968a, c; Nakano 1970; Negoro 1973; Hirose and Hirano 1977; Imazu 1979, 1987; M. Watanabe and Niiyama 1990
- O. margaritifera* (Kütz.) Gom. 1892
Syn.: *Arthospira breviarticulata* Setch. & Gardn. in Gardn. 1918, *Spirulina brevarticulata* (Setch. & Gardn.) Geitl. 1932
Ref.: Akatsuka 1951; Umezaki 1961
- O. princeps* Vauch. ex Gom. 1892
Ref.: Molisch 1926; Kobayasi and Watari 1934; Hirose 1938; Yoneda 1938b, c, 1942b, 1952a, 1954a, 1966; Emoto and Yoneda 1940a; Emoto and Hirose 1940b, 1941, 1942b, d, 1952c; Yamaguti 1955; Kobayasi 1958; Kobayasi et al. 1962; Hiramatsu 1967; Horikawa et al. 1969; Nakano 1970; Negoro 1973; Hirose and Hirano 1977; Mifune and Hirose 1982; Yamagishi 1985
- Syn.: *Oscillatoria princeps* Vauch. var. *minor* Emoto & Yoneda 1941a
Ref.: Emoto and Yoneda 1941a; Ikoma and Doi 1955; Hiramatsu 1967; Hirose and Hirano 1977; Mifune and Hirose 1982, 1983a, b
Syn.: *Oscillatoria princeps* Vauch. var. *tenella* Copel. 1936
Ref.: Yoneda 1939b, c, 1940b, 1941b, 1942a, b, c, 1952a; Emoto and Yoneda 1940a, b; Emoto and Hirose 1942e; Hirose and Hirano 1977
- O. proboscidea* Gom. 1892
- O. proboscidea* var. *proboscidea*
Ref.: Molisch 1926; Yoneda 1941a, b, 1952a; Negoro 1973; Hirose and Hirano 1977
- O. proboscidea* var. *westii* Forti 1907
Ref.: Yoneda 1952a
- O. sancta* Kütz. ex Gom. 1892
Ref.: Molisch 1926; Yoneda 1938b, c, 1952a; Emoto and Hirose 1940b, 1942e; Fukushima 1952; Negoro 1973; Hirose and Hirano 1977
- O. subbrevis* Schmidle 1901
- O. subbrevis* var. *subbrevis*
Ref.: Yoneda 1940a, 1942c, g, 1952a; Hiramatsu 1967; Nakano 1970; Hirose and Hirano 1977; Ioriya et al. 1984
- O. subbrevis* var. *major* (G. S. West) stat. nov.
Basion.: *Oscillatoria subbrevis* Schmidle f. *major* G. S. West, J. Linn. Soc. Bot. 38: 178, 1907
Ref.: M. Watanabe and Niiyama 1990
- O. subspiroides* Yoneda 1942b
Ref.: Yoneda 1942b, 1952a; Hirose and Hirano 1977
- Lyngbya* Ag. ex Gom. 1892
- L. aestuarii* (Mert.) Lyngb. ex Gom. 1892
Ref.: Molisch 1926; Yoneda 1938c, 1942a, b, 1952a, 1953a; Emoto and Yoneda 1942; Emoto and Hirose 1952c; Fujiyama and Kabuto 1956; Umezaki 1955a, 1961; Ochiai 1926b; Hiramatsu 1967; Negoro 1973; Hirose and Hirano 1977; Noda 1987
- L. anomala* (C. B. Rao) comb. nov.

- Basion.: *Phormidium anomalum* C. B. Rao,
Proc. Indian Acad. Sci. 6(6): 371, 1937
("anomala")
- Ref.: M. Watanabe and Niiyama 1990 (as
Lynbya anomala C. B. Rao)
- Phormidium anomalum* C. B. Rao belongs to
Lynbya in having discoid cells and dis-
tinct sheaths.
- L. birgei** G. M. Smith 1916 ("Birgei")
- Ref.: Hirose 1938; Akatsuka 1951; T.
Watanabe 1968c; Hirose and Hirano
1977; Imazu 1981

 Ref.: Emoto and Hirose 1942a; Yoneda 1952a; Hirose and Hirano 1977
- S. nasuensis* Emoto & Hirose 1940
 Ref.: Emoto and Hirose 1940a; Yoneda 1952a; Hirose and Hirano 1977
- S. thermalis* (Kütz.) Gom. 1892
S. thermalis var. *thermalis*
 Ref.: Molisch 1926; Yoneda 1938b, c, 1941b, 1942f, 1952a; Emoto and Hirose 1940a, 1942c, d, 1952b; Emoto and Yoneda 1941b; Fukushima 1963; Negoro 1973; Hirose and Hirano 1977
- S. thermalis* var. *longiarticulata* (Emoto & Hirose) stat. nov.
 Basion.: *Symploca thermalis* (Kütz.) Gom. f. *longiarticulata* Emoto & Hirose, Bot. Mag. Tokyo 56: 39, 1942
 Ref.: Emoto and Hirose 1942a; Hirose and Hirano 1977
- Trichodesmium* Ehrenb. ex Gom. 1892
 Syn. *Xanthotrichum* Wille in Schütt 1892, *Heliotrichum* Wille in Schütt 1892, *Haliarachne* Lemm. 1899, *Pelagothrix* Johs.-Schmidt 1901, *Skujaella* J. De Toni 1938
- T. clevei* (J. Schmidt) Anagn. & Kom. 1988
 Basion.: *Pelagothrix Clevei* J. Schmidt 1901
 Ref.: Akatsuka 1951; Marumo 1966
- T. contortum* Wille 1903
 Syn.: *Skujaella contorta* (Wille) J. De Toni 1939
- Ref.: Akatsuka 1951; Marumo 1966; Yamaji 1984
T. erythraeum Ehrenb. ex Gom. 1892
 Syn.: *Oscillatoria erythraea* (Ehrenb.) Geitl. 1932, *Skujaella erythraea* (Ehrenb.) J. De Toni 1938
 Ref.: Okamura 1907; Higashi 1933b; Akatsuka 1951; Tsujita 1956; Umezaki 1961, 1987; Motoda and Marumo 1963; Marumo 1966; Nagasawa and Marumo 1967; Yamaji 1984
- T. hildebrandtii* Gom. 1892 ("*Hildebrandtii*")
 Syn.: *Oscillatoria Hildebrandtii* (Gom.) Geitl. 1932, *Skujaella Hildebrandtii* (Gom.) J. De Toni 1939
 Ref.: Akatsuka 1951; Umezaki 1961; Marumo 1966; Yamaji 1984
- T. lenticulare* (Lemm.) Anagn. & Kom. 1988
 Basion.: *Haliarachne lenticularis* Lemm. 1899
 Ref.: Akatsuka 1951
- T. radians* (Wille) Golubić 1977
 Basion.: *Trichodesmium tenue* Wille 1904
 Syn.: *Skujaella tenue* (Wille) J. De Toni 1939
 Ref.: Akatsuka 1951
- T. thiebautii* Gom. 1892 ("*Thiebautii*")
 Syn.: *Oscillatoria Thiebautii* (Gom.) Geitl. 1932, *Skujaella Thiebautii* (Gom.) J. De Toni 1939
 Ref.: Okamura 1907, 1916; Kokubo 1932; Akatsuka 1951; Umezaki 1961; Motoda and Marumo 1963; Marumo 1966; Yamaji 1984
 The habit of trichomes of *Haliarachne pacifica* figured by Akatsuka (1951, pl. 11, f. 7) is nothing but those of *Trichodesmium thiebautii*.
- Tychonema* Anagn. & Kom. 1988
- T. bornetii* (Zukal) Anagn. & Kom. 1988
 Basion.: *Lyngbya Bornetii* Zukal 1894
 Syn.: *Oscillatoria Bornetii* (Zukal) Forti 1907
 Ref.: Akiyama 1965a
- T. granulatum* (Gardn.) Anagn. & Kom. 1988
 Basion.: *Oscillatoria granulata* Gardn. 1927
 Ref.: Kobayasi 1958; Kobayasi et al. 1962; Imazu 1987

(2) Microcoleoideae Hansg. 1892

Hydrocoleum Kütz. ex Gom. 1892

Syn.: *Polychlamydum* W. & G. S. West 1897

H. coccineum Gom. 1892

Ref.: Umezaki 1961

H. confluens (Setch. & Gardn.) Drouet 1942

Basion: *Microcoleus confluens* Setch. & Gardn. in Gardn. 1918

Ref.: Umezaki 1961

H. glutinosum (Ag.) Gom. 1892

Ref.: Umezaki 1961

H. homoeotrichum Kütz. ex Gom. 1892

Ref.: Negoro 1973

Microcoleus Desm. ex Gom. 1892

M. chthonoplastes (Mert.) Zanard. ex Gom.

1892

Ref.: Emoto and Hirose 1952c; Umezaki 1961; Imazu and Hirose 1961; Mifune et al. 1966; Hirose and Hirano 1977

M. paludosus (Kütz.) Gom. 1892

Ref.: Yoneda 1938a, 1966; Akiyama 1965a; Hiramatsu 1967; Hirose and Hirano 1977

M. sanctae-crucis Frémy 1939

Ref.: Umezaki 1961

M. sociatus W. & G. S. West 1897

Ref.: Yoneda 1939b, c, 1940a, 1952a, 1962a; Emoto and Hirose 1943a; Hiramatsu 1967, 1973; Hirose and Hirano 1977

M. steenstrupii Boye-Peters. 1923 ("Steenstrupii")

Ref.: Emoto and Yoneda 1941b; Yoneda 1942a, b, c, 1952a; Emoto and Hirose 1942e; Hirose and Hirano 1977

M. subtorulosus (Bréb.) Gom. 1892

Ref.: Hirose 1938; Yoneda 1939a; Hiramatsu 1962; Hiramatsu 1967; Hirose and Hirano 1977

M. tenerrimus Gom. 1892

Syn.: *Microcoleus tenerrimus* Gom. var. *longus* Umez. 1952a

Ref.: Umezaki 1952a, b, 1955a, 1961

M. vaginatus (Vauch.) Gom. 1892

Ref.: Emoto and Yoneda 1942; Yoneda 1942a, 1952a; Akiyama 1965a; Hiramatsu 1967, 1973; Negoro 1973; Hirose

and Hirano 1977

M. voukii Frémy 1932 ("Voukii")

Ref.: Umezaki 1961

M. wuitneri Frémy 1932 ("Wuitneri")

Ref.: Umezaki 1961; Hirose and Kajimura 1973

Sirocoleum Kütz. ex Gom. 1892

Syn.: *Dasygloea* Thw. ex Gom. 1892

S. amorphum (Thw. ex Gom.) comb. nov.

Basion.: *Dasygloea amorpha* Thw. ex Gom., Ann. Sci. Nat. VII. Bot. 15: 347, 1892

Ref.: Fukushima 1952, 1954; Hirano 1962; Hirose and Hirano 1977

S. kurzii (Zell.) Gom. 1892

Syn.: *Microcoleus Weeksii* Setch. & Gardn. in Gardn. 1918, *Hydrocoleum Boergesenii* Gardn. 1932, *Microcoleus Boergesenii* Frémy 1939

Ref.: Umezaki 1952a, b, 1955c, 1956c, 1961

(3) Spirulinoideae Forti 1907

Arthrosira Stizenb. ex Gom. 1892

A. fusiformis (Voron.) Kom. & Lund 1990

Basion.: *Spirulina fusiformis* Voron. 1934

Ref.: M. M. Watanabe and Ichimura 1977 (as *Spirulina platensis*)

A. jenneri Stizenb. ex Gom. 1892 ("Jenneri")

Ref.: Kobayasi and Watari 1934; Akatsuka 1951

Syn.: *Spirulina jenneri* (Stizenb.) Geitl. 1925

Ref.: Emoto and Hirose 1941; Hirose 1962; Mizuno 1964; Negoro 1973; Hirose and Hirano 1977

Spirulina Turp. ex Gom. 1892

S. gigantea Schmidle 1902

Ref.: Akiyama 1965a; Hirose and Hirano 1977

S. laxa G. M. Smith 1916

Ref.: Akatsuka 1951; Akiyama 1965a; Hirose and Hirano 1977

S. laxissima G. S. West 1907

Ref.: Akatsuka 1951

S. major Kütz. ex Gom. 1892

S. major var. *major*

Ref.: Yoneda 1940a, 1952a, 1966; Aka-

- tsuka 1951; Umezaki 1961; Hiramatsu 1967, 1973; Hirose and Hirano 1977
- S. major* var. *constans* Emoto & Hirose 1952b
Ref.: Emoto and Hirose 1952b
- S. nordstedtii* Gom. 1892 ("*Nordstedtii*")
Ref.: Mizuno 1964
- S. princeps* W. & G. S. West 1902
Ref.: Akatsuka 1951; Hirose et al. 1960;
Akiyama 1965a; Hirose and Hirano 1977; Yamagishi 1989
- S. pseudovacuolata* Utermöhl ex Koppe 1924
Ref.: Akatsuka 1951
- S. subsalsa* Oersted ex Gom. 1892
Ref.: Yoneda 1938b, c, 1952a, 1954a; Emoto and Yoneda 1940b, 1941b; Umezaki 1961; Hirose and Kajimura 1973; Hirose and Hirano 1977
- S. subtilissima* Kütz. ex Gom. 1892
Ref.: Yoneda 1939b, 1940a, 1952a; Hirose and Hirano 1977
Syn.: *Spirulina labyrinthiformis* Gom. 1892
Ref.: Yoneda 1939c, 1940a, 1952a; Umezaki 1961; Hirose and Kajimura 1973; Noda 1987
- S. tenerrima* Kütz. ex Gom. 1892
Syn.: *Spirulina socialis* Gardn. 1932
Ref.: Umezaki 1952a, b, 1955a, c, 1961
5. Pseudanabaenaceae Anagn. & Kom. 1988
(1) Leptolyngbyoideae Anagn. & Kom. 1988
Geitlerinema (Anagn. & Kom.)
Anagn. 1989
- G. acutissimum* (Kuffer) Anagn. 1989
Basion.: *Oscillatoria acutissima* Kuffer 1914
Syn.: *Phormidium acutissimum* (Kuffer)
Anagn. & Kom. 1988
Ref.: Hirose 1938; Yoneda 1952a; Hirose and Hirano 1977
- G. amphibium* (Ag. ex Gom.) Anagn. 1989
Basion.: *Oscillatoria amphibia* Ag. ex Gom.
1892
Syn.: *Phormidium amphibium* (Ag. ex Gom.)
Anagn. & Kom. 1988
Ref.: Molisch 1926; Yoneda 1938b, c,
1939b, c, 1940b, 1941b, c, 1942b, c, d,
1952a, b, 1962a; Yon. Okada 1939; Okada 1939b; Emoto and Yoneda 1940a, b;
Emoto and Hirose 1941; Kobayashi 1958;
- Hirano 1960, 1962; Kobayashi et al.
1962; Mizuno 1964; Akiyama 1965a; Iso-
da 1966; Hiramatsu 1967; T. Watanabe
1968c; Hirose and Kajimura 1973; Hiro-
se and Hirano 1977; Umezaki 1987
- G. claricentrosum* (Gardn.) Anagn. 1989
Basion.: *Oscillatoria claricentrosa* Gardn.
1927
Syn.: *Phormidium claricentrosum* (Gardn.)
Anagn. & Kom. 1988
Ref.: Hiramatsu 1967
- G. codii* nom. nov.
Syn.: *Arthospira miniata* f. *acutissima* Ume-
zaki, Mem. Coll. Agr., Kyoto Univ. 83:
64, 1961
Ref.: Umezaki 1961
- G. jasorvense* (Vouk) Anagn. 1989
Basion.: *Oscillatoria jasorvensis* Vouk 1919
Syn.: *Phormidium jasorvense* (Vouk) Anagn.
& Kom. 1988
Ref.: Emoto and Yoneda 1940b; Yoneda
1941a, 1952a, b; Hirose and Hirano
1977
- G. lemmermannii* (Wolosz.) Anagn. 1989
Basion.: *Oscillatoria Lemmermannii* Wolosz.
1911
Syn.: *Jaaginema Lemmermannii* (Wolosz.)
Anagn. & Kom. 1988
Ref.: Yoneda 1938b, c, 1952a; Akatsuka
1951; Hirose and Hirano 1977
- G. peronidum* (Skuja) comb. nov.
Basion.: *Oscillatoria peronides* Skuja in Han-
del-Mazzetti, Symb. Sinicae 1: 37, 1937
Ref.: Emoto and Hirose 1940b; Yoneda
1952a; Hirose and Hirano 1977
The characteristics of *Oscillatoria peronides*
Skuja except its diameter which is a little
thicker agree well with the diagnosis of
Geitlerinema.
- G. splendidum* (Grev. ex Gom.) Anagn. 1989
Basion.: *Oscillatoria splendida* Grev. ex
Gom. 1892
Syn.: *Phormidium splendidum* (Grev. ex
Gom.) Anagn. & Kom. 1988
- G. splendidum* var. *splendidum*
Ref.: Molisch 1926; Ueda 1939; Yoneda
1940a, 1942b, c, 1952a, 1954a; Emoto
and Yoneda 1940a, 1941a; Emoto and
Hirose 1942b, e, 1949, 1952a, c; Ikoma

- and Doi 1955; Fukushima 1952, 1954; Kobayasi 1958; Kobayasi et al. 1962; Mizuno 1964; Akiyama 1965a; T. Watanabe 1956; Hiramatsu 1967; Negoro 1973; Hirose and Hirano 1977; Mifune and Hirose 1983a; Negoro and Aoki 1991
- G. splendidum** var. *attenuatum* (W. West) comb. nov.
 Basion.: *Oscillatoria splendida* var. *attenuata* W. West, J. Roy. Microsc. Soc. London 1896: 165, 1896
 Ref.: Yoneda 1952a
- G. splendidum** var. *truncatum* (Emoto & Hirose) comb. nov.
 Basion.: *Oscillatoria splendida* var. *truncatum* Emoto and Hirose, Bot. & Zool. (Tokyo) 8: 395, 1940
 Ref.: Emoto and Hirose 1940a; Yoneda 1942a; Hirose and Hirano 1977
- G. uncinatum** (Emoto & Hirose) comb. nov.
 Basion.: *Oscillatoria uncinata* Emoto & Hirose, Bot. & Zool. (Tokyo) 8: 396, 1940, non *Oscillatoria uncinata* Agardh ex Gom. 1892
 Ref.: Emoto and Hirose 1940a, 1952b; Yoneda 1952a; Hirose and Hirano 1977
 The characteristics of *Oscillatoria uncinata* Emoto & Hirose agree well with the diagnosis of *Geitlerinema*.
- Leibleinia** (Gom.) L. Hoffm. 1985
 Syn.: *Lyngbya* Ag. ex Gom. subg. *Leibleinia* Gom. 1892
- L. akkeshiensis** (Hirose) Anagn. & Kom. 1988
 Basion.: *Lyngbya akkeshiensis* Hirose 1938
 Ref.: Hirose 1938; Hirose and Hirano 1977
- L. angusta** (Yoneda) Anagn. & Kom. 1988
 Basion.: *Lyngbya angusta* Yoneda 1941a
 Ref.: Yoneda 1941a; Hirose and Hirano 1977
- L. baculum** (Gom.) L. Hoffm. 1985
 Basion.: *Lyngbya Baculum* Gom. 1892
 Ref.: Umezaki 1961
- L. epiphytica** (Hieron. ex Kirchn.) Compère 1985
 Basion.: *Lyngbya epiphytica* Hieron. ex Kirchn. in Engl. & Prantl 1900
 Ref.: Yoneda 1940a, 1952a, 1953a; Emoto and Yoneda 1940a, 1941a, b, c, 1942; Emoto and Hirose 1940a, 1942a, c; Umezaki 1955a, 1961; Takata and Hirose 1971; Hirose and Hirano 1977
- L. gracilis** Menegh. 1844
 Syn.: *Lyngbya gracilis* Rabenh. ex Gom. 1892
 Ref.: Umezaki 1961; Hirose and Kajimura 1973
- L. nordgaardii** (Wille) Anagn. & Kom. 1988
 Basion.: *Lyngbya Nordgaardii* Wille 1918
 Syn.: *Lyngbya epiphytica* Wille 1913, *Lyngbya Willei* Setch. & Gardn. in Gardn. 1918
 Ref.: Umezaki 1951, 1961; Hiramatsu 1973
- L. pellucida** (Umezaki) comb. nov.
 Basion.: *Lyngbya pellucida* Umez., Bot. Mag. Tokyo 68: 68, 1955
 Ref.: Umezaki 1955a, 1961
- L. polychroa** Menegh. 1844
 Syn.: *Leibleinia sordida* (Zanard. ex Gom.) Umez. & Lewmanom. 1991, non *Leibleinia sordida* Kütz. 1849.
 Syn.: *Lyngbya sordida* (Zanard.) Gom. 1892, non *Lyngbya sordida* Crouan in Mazé & Schramm (1870) ex Gom. 1892.
 Ref.: Umezaki 1961; Noda 1974
- L. polysiphoniae** (Frémy) Compère 1985
 Basion.: *Lyngbya Polysiphoniae* Frémy 1929
 Ref.: Emoto and Hirose 1942e; Yoneda 1952a, 1962a; Hirose and Hirano 1977
- Leptolyngbya** Anagn. & Kom. 1988
- L. angustissima** (W. & G. S. West) Anagn. & Kom. 1988
 Basion.: *Phormidium angustissimum* W. & G. S. West 1897
 Ref.: Molisch 1926; Yoneda 1939c, 1940a, b, 1941b, 1952a; Emoto and Yoneda 1941a; Hirose and Hirano 1977; Bando and Nakano 1983
- L. calothrichoides** (Gom.) Anagn. & Kom. 1988
 Basion.: *Plectonema calothrichoides* Gom. 1899
 Ref.: Umezaki 1961, 1965
- L. cebennensis** (Gom.) comb. nov.

- Basion.: *Phormidium cebennense* Gom., Bull. Bot. Fr. 46: 38, 1899
Ref.: Emoto and Hirose 1952c; Hirose and Hirano 1977
Phormidium cebennense Gom. is near to *Lep-tolyngbya* except that apical cells have calyptra.
- L. crosbyana* (Tild.) Anagn. & Kom. 1988
Basion.: *Phormidium Crosbyanum* Tild. 1909
Ref.: Umezaki 1961
- L. desmidiaeacrum* (Noda) comb. nov.
Basion.: *Plectonema desmidiaeacrum* Noda, J. Fac. Sci. Niigata Univ., ser. D (Biol.), no. 8: 61, 1971
Ref.: Noda 1971
- L. distincta* (Nordst.) Anagn. & Kom. 1988
Basion.: *Lyngbya Martensiana* var. *distincta* Nordst. ex Schmidle 1897
Ref.: Ueda and Okada 1934
- L. ectocarpii* (Gom.) Anagn. & Kom. 1988
Basion.: *Phormidium Ectocarpii* Gom. 1899
Ref.: Umezaki 1961
- L. foveolarum* (Rabenh. ex Gom.) Anagn. & Kom. 1988
Basion.: *Phormidium foveolarum* (Rabenh.) Gom. 1892
Ref.: Ueda and Okada 1934; Hada and Kusuki 1938; Yoneda 1938b, c, 1952a; Emoto and Yoneda 1941b; Emoto and Hirose 1943a; Akiyama 1965a; Mifune et al. 1966; Hiramatsu 1967, 1973; Nakano 1970; Negoro 1973; Hirose and Hiran- no 1977

Remarks

Oscillatoria angusta Koppe 1924 (Imazu and Hirose 1961; Hirose and Hirano 1977) is identified as bacteria by Drouet (1968, p. 319). *Schizothrix fragilis* (Kütz.) Gom. 1892 is doubt to occur in hot springs (Yoneda 1938b, c, 1941, 1942f, 1952a; Emoto and Yoneda 1941b; Akiyama 1965a; Mifune et al. 1966; Hirose and Hirano 1977). *Phormidium boryanum* Kütz. ex Geitl. 1925 (Fukushima 1951) [non *Phormidium boryanum* (Bory ex Gom.) Anagn. & Kom. 1988] is a synonym of *Phormidium setchellianum* Gom. (1892, p. 190).

The following species without Latin diagnosis and other descriptions are listed in Yoneda's paper (Yoneda, Y.: A general consideration of the thermal Cyanophyceae of Japan. Mem. Coll. Agr., Kyoto Univ. 62: 1-20, 1952). Homoeotrichaceae: *Ammatoidea* ("Hammatoidea") *multispora* Yoneda nom. nud., *A. olivacea* Yoneda nom. nud. Oscillatoriaceae: *Oscillatoria pseudosancta* Yoneda nom. nud., *O. olivacea* Yoneda nom. nud., *O. sublimosa* Yoneda nom. nud., *O. vialacea* Yoneda nom. nud., *O. yezoensis* Yoneda nom. nud. Phormidiaceae: *Phormidium tepidariorum* Yoneda nom. nud.

梅崎 勇*・渡辺真之**：日本産藍藻類目録 1. クロオコックス目及びユレモ目

1853-1856年の米国北太平洋探検隊によって横浜その他から採集された海藻標品の中から W. H. Harvey が 1859年に藍藻類の4新種を発表したのが、日本における藍藻類の最初の報告である。本報告は、それ以後現在に至るまでの外国人及び日本人によって日本より記録された藍藻類のクロオコックス目とユレモ目に属する種類をリストしたものである。なお、分類群（属から目にいたる）の配列は、クロオコックス目については Anagnostidis and Komárek (1986) の、ユレモ目については Komárek and Anagnostidis (1988) の分類に従った。

クロオコックス目には7科40属160種がリストされた。エントフィザイリス科に2新組合せ種が、キセノコックス科に1新名種がつくられた。エントフィザイリス科：*Placoma adriatica* (Hauck) comb. nov. (= *Oncobrysa adriatica* Hauck 1885), *P. micrococca* (Hansg.) comb. nov. (= *Oncobrysa adriatica* Hauck var. *micrococca* Hansg. 1893); キセノコックス科：*Xenococcus yonedaee* nom. nov.

ユレモ目には、ボルジア科に3属6種、ホモエオスリックス科に2属17種、ユレモ科に5属29種、ナガレクダモ科に12属126種、シュウドアナベナ科に8属72種、エダウチクダモ科に1属15種がリストされた。ボルジア科とユレモ科にそれぞれ1新組合せ種がつくられた。ボルジア科：*Komvophoron tenuis* (Emoto & Hirose) comb. nov. (= *Oscillatoria constricta* Szaf. var. *tenuis* Emoto & Hirose 1940); ユレモ科：*Lyngbya anomala* (C. B. Rao) comb. nov. (= *Phormidium anomalum* C. B. Rao 1937)。ナガレクダモ科に13新組合せ種と3新名種がつくられた。*Phormidium acuminatum* var. *longe-attenuatum* (Geitl. & Ruttn.) comb. nov. (= *Oscillatoria acuminatum* Gom. f. *longe-attenuata* Geitl. & Ruttn. 1935), *P. chalybeum* var. *depauperatum* (Copel.) comb. nov. (= *Oscillatoria chalybea* Mert. var. *depauperata* Copel. 1936), *P. chlorinum* (Kütz.) comb. nov. (= *Oscillatoria chlorina* Kütz. ex Gom. 1892), *P. foreai* (Frémy) comb. nov. (= *Oscillatoria foreai* Frémy 1942), *P. konstantianum* nom. nov., *P. nemuroense* (Yoneda) comb. nov. (= *Lyngbya nemuroensis* Yoneda 1941), *P. proteus* (Skuja) comb. nov. (= *Oscillatoria proteus* Skuja 1949), *P. puiteale* var. *minor* (Geitl.) comb. nov. (= *Lyngbya puitealis* Mont. var. *minor* Geitl. 1933), *P. spirulinoides* (Yoneda) comb. nov. (= *Oscillatoria spirulinoides* Yoneda 1954), *P. subspiroides* (Copel.) comb. nov. (= *Lyngbya subspiroides* Copel. 1936), *P. thwaitesii* nom. nov., *P. yonedaee* (Umez.) comb. nov. (= *Oscillatoria Yonedaee* Umez. 1961), *P. yuichii* nom. nov., *Planktothrix iwanoffiana* (Nyg.) comb. nov. (= *Trichodesmium Iwanoffianum* Nyg. 1926), *P. lacustris* (Kleb.) comb. nov. (= *Trichodesmium lacustre* Kleb. 1895), *P. miyadiei* (Negoro) comb. nov. (= *Oscillatoria Miyadiei* Negoro 1943)。シュウドアナベナ科には15新組合せ種と1新名種がつくられた。*Geitlerinema peronidum* (Skuja) comb. nov. (= *Oscillatoria peronides* Skuja 1937), *G. splendidum* var. *attenuatum* (W. West) comb. nov. (= *Oscillatoria splendida* Grev. var. *attenuata* W. West 1896), *G. splendidum* var. *truncatum* (Emoto & Hirose) comb. nov. (= *Oscillatoria splendida* Grev. var. *truncatum* Emoto & Hirose 1940), *G. uncinatum* (Emoto & Hirose) comb. nov. (= *Oscillatoria uncinata* Emoto & Hirose 1940), *G. codii* nom. nov., *Leibleinia pellucida* (Umez.) comb. nov. (= *Lyngbya pellucida* Umez. 1961), *Leptolyngbya cebennense* (Gom.) comb. nov. (= *Phormidium cebennense* Gom. 1899), *L. desmidiaeacrum* (Noda) comb. nov. (= *Plectonema desmidiaeacrum* Noda 1971), *L. notata* var. *africana* (Fritsch & Rich) comb. nov. (= *Plectonema notatum* Schmidle var. *africanum* Fritsch & Rich 1929), *L. purpurascens* var. *elegans* (Drouet) comb. nov. (= *Phormidium purpurascens* (Kütz.) Gom. var. *elegans* Drouet 1934), *L. subterranea* (Copel.) comb. nov. (= *Phormidium subterraneum* Copel. 1936), *Planktolyngbya spirulinoides* (Utermöhl) comb. nov. (= *Lyngbya spirulinoides* Utermöhl 1925), *Jaaginema geminata* var. *sulphurea* (Strzesz.) comb. nov. (= *Oscillatoria geminata* Menegh. var. *sulphurea* Strzesz. 1913), *Limnothrix guttulata* (van Goor) comb. nov. (= *Oscillatoria guttulata* van Goor 1918), *L. pseudominima* (Skuja) comb. nov. (= *Oscillatoria pseudominima* Skuja 1955), *L. quasiperforata* (Skuja) comb. nov. (= *Oscillatoria quasiperforata* Skuja 1949). (*917 小浜市学園町1-1 福井県立大学生物資源学部海洋生物資源学科, **305 つくば市天久保4-1-1 国立科学博物館植物研究部)
